25X1

indefinite TDY to LATF. [redacted] began on 2 July an

b. Reassignments

25X1

25X1

25X1

[redacted] will leave OSB/SD on 16 July: he has been reassigned as Deputy Chief, [redacted]

c. Assignments

25X1

25X1

[redacted] an MG/CT reported to Supply Division on 2 July for a three-month interim training period.

d. ICS - System Response

ICS System response time for the week ending 29 June fluctuated between marginal and unacceptable. The problem intensified as SMB personnel attempted to ensure the system was updated with all pending actions before the end of the month and end of third quarter cut-off. As a result of unpredictable system response, a number of actions were not included in the end-of-month figures.

e. Training

25X1

On 18-19 June an ASAPS training class was conducted by Data Control Branch [redacted]

f. Changes to Computer Applications

During the week (2-6 July) testing will commence on the ICS/CONIF/GAS enhancement to pass commitment/obligations/payment data on Funds Requisitions between the three systems. This is scheduled to go on line 1 August and all requisitions processed through Logistics will then be included in these interfaces.

III. Significant Events Anticipated during the Coming Week

None
